

Mrs. Moughton's Sun Times

Halloween Party/Parade

We will be celebrating Halloween on Tuesday, October 31st. We will start getting changed into our costumes at 1:45. I'll have a little video for students to watch as they finish changing and are waiting for others. The parade starts at 2:15. Parents will be on the inside of the track and we'll do 2 laps around in our costumes. We will come back to our classroom after the parade for some snacks. Dana VanSweeden has coordinated all the treats!! I sure do appreciate all the contributions! After some treats and clean up, we'll play one quick little game. I'll have a sign out sheet right in the classroom if you're interested in taking your child with you from school. I know that evening will have lots of fun-filled trick-or-treating adventures. Please try to still have your child well rested and ready for a focused day of school on Wednesday! Thanks for all your efforts!!!

Week in a Nutshell

Reading/Writing: We wrapped up our first unit this week. The students wrote a compare/contrast piece for our first PBA (Performance Based Assessment). We also took our first End of Unit Assessment in reading. The kids have really been persevering during these testing situations!

Math— We took our mid-module assessment on Thursday. We'll continue our work with place value for a couple more weeks. I will be sending home information on how to log into Zearn at home. This is a great way to reinforce the exact skills and lessons we're working on in the classroom!

Science— We continued working with properties of water—solid, liquid and gas.

7 Habits— We continued our work with Habit 1—Be Proactive. I'm using this language often to help guide our kids in realizing they are in control of their own actions.
