

Mrs. Moughton's Sun Times

Book Order and Book Fair

I love giving you the opportunity to buy books at a discounted rate! I'm sending our first book order home today. It is due September 22nd. You may fill out the paper copy and send in a check made out to Scholastic, or you may go online at <https://clubs.scholastic.com> and enter classroom code LJ9M4 to order. If we get a total order of \$50 or more, every student will receive a free book from Scholastic! I also earn bonus points that I can use to buy books for our classroom! I'll try sending book orders home about once a month, so please don't feel obligated each time! Order at your convenience! We also have our school Book Fair coming up soon! Books are not discounted quite as much, but it sure is fun to shop at the Book Fair! Our shopping time is Tuesday, Sept. 26 at 2:45 - during our regular checkout time!

3rd Grade Reading Law

Please see the blue paper coming home with very important information about the new Michigan legislation and how it impacts our students at Sunset Lake

2nd Grade Permission Slip

I know the beginning of the year has SO much paperwork!!! I waited to send the 2nd grade permission slip so it wouldn't get mixed in with other paperwork. Thanks so much for taking the time to fill this out over the weekend and send back to school on Monday!

Remind Slips

I love using the app Remind to communicate quick reminders to families or sending a quick message for individual parents. You can also easily contact me as well!! I currently have 15 families signed up and would love to get to all 22! If you haven't signed up yet, you'll see the Remind sign up sheet coming home today!

Volunteers Needed!

It is time for another year of our Sunset Lake Elementary Volunteer Program. We welcome you to Vicksburg Community Schools. Sunset Lake needs the help of our many wonderful parent volunteers. If you want to be a volunteer this year, please complete this [questionnaire](#) as soon as possible. If you have any questions, please call Sunset Lake at 321-1500. Thank you for your continued support. We appreciate you!

Week in a Nutshell

Reading: We continued establishing reading routines—both whole group and independent with AR testing.

Writing— Our writing program aligns directly with reading. We often are looking for evidence from the text to support our writing. This is a bit new to all of us, but we're still working to build this new skill.

Math—We are reviewing number patterns within 10 and adding to the 10s. We will also started some measuring with centimeter cubes this week.

Science—We took our science pretest this week. We will be studying Earth's Land and Water forms.
